

MORE VALUE

REMEDY BRINGS YOU MORE VALUE.

STEADFASTLY COMMITTED

We're a young, healthy scheme in a strong financial position. This means we can pay claims on time and continue paying them even in unexpected events like COVID-19. We can keep doing this well into the future.

DIGITAL RESOURCES

Our website and mobile app have all the information you need to manage your Scheme membership. Find your tax certificate, claims history and payments, educational content, and lots more.

HR SUPPORT

You never have to manage your benefits alone. Aside from the call centre, you can also contact your HR Department to help you with some administrative tasks like member applications and option changes.

EMPLOYER TRUST

Our relationship with our participating employer groups have been going strong since 1972. We keep the employer management team updated on the operations of the Scheme.

PERSONAL TOUCH

You elect the Trustees (management) of the Scheme. These are your co-workers, uniquely positioned to understand your needs and always put your interests first.

GREAT SERVICE AND SUPPORT

86% of members tell us that they are happy with the service our call centre provides.

YOU'RE ALWAYS INFORMED

Our newsletters and benefit brochures give you great content, but we also do regular webinars, giving you the opportunity to understand your benefits better or just be in touch with us.

WELLNESS ON YOUR DOORSTEP

You can do your wellness checks where you work on wellness days. This saves you time and money, and helps you stay in good health.
