How to activate the benefit

Download the latest version of the Discovery app, log in and navigate to the rewards section under Vitality to activate the **Vitality Ster-Kinekor movie benefit**.

The main member can activate the benefit for all dependants on their Vitality policy. The spouse on the main member's Vitality Health membership can activate the benefit for child dependents under 18 years only if they are the child's legal guardian. They will need to warrant that they are the legal guardian of the child dependent in question and provide this consent in the activation process. Vitality shall at all times reserve the right to request valid proof of such spouse's guardianship. Any other dependants over 18 years on the Vitality policy can activate the benefit for themselves.

The initiator of the activation process will need to agree to the terms and conditions of the benefit. Vitality will securely share the member's personal details with Ster-Kinekor to activate the benefit. These personal details include the name, surname and date of birth of each member selected for activation.

Should a member opt in to Ster-Kinekor's marketing communication, the initiators email address will also be sent to Ster-Kinekor and the marketing communication thereof will be managed by Ster-Kinekor directly. Discovery Vitality will not share personal member information with Ster-Kinekor for marketing communication purposes.
