Contents

Key terms

This section explains some of the terms that you will find in this document.

C

Chronic Illness Benefit (CIB)

The Chronic Illness Benefit (CIB) covers medicine and treatment for a defined list of chronic conditions. You need to apply for the cover first.

Comprehensive cover

This cover exceeds the essential healthcare services and Prescribed Minimum Benefits that are prescribed by the Medical Schemes Act 131 of 1998. Comprehensive cover offers you extra cover and benefits to complement your basic cover. It gives you the flexibility to choose your healthcare options and service providers. Whether you choose full cover or options outside of full cover, we give you the freedom to decide what suits your needs. Our cover is in line with, or goes beyond, defined clinical best practices. This ensures that you receive treatment that is expected for your condition and that is clinically appropriate.

We may review these principles from time to time to stay current with changes in the healthcare landscape. While comprehensive, your cover remains subject to the Scheme's treatment guidelines, protocols and designated service providers. We still prioritise managed care to make sure you get the best outcomes for your health.

Co-payment

This is an amount that you have to pay towards a healthcare service. The amount can vary, depending on the type of healthcare service, the place of service and whether the amount that the service provider charges is higher than the rate that we cover. If the co-payment amount is higher than the amount charged for the healthcare service, you will have to pay for the cost of the healthcare service.

Cover

Refers to the benefits that you can access on your health plan and how we pay for these healthcare services. The services may include consultations, medicine and hospital visits.

D

Day-to-day benefits

Depending on your chosen plan, you have cover for a defined set of day-to-day medical expenses such as medically appropriate GP consultations, blood tests, x-rays or medicine in our KeyCare networks.

Designated service provider (DSP)

This refers to a healthcare professional or provider (for example, a doctor, specialist, allied healthcare professional, pharmacy or hospital) who/that has agreed to provide Discovery Health Medical Scheme members with treatment or services at a contracted rate. To view the full list of designated service providers, visit www.discovery.co.za, or click on 'Find a healthcare provider' on the Discovery Health app.

Discovery Health Rate (DHR)

This is a rate we pay for healthcare services from hospitals, pharmacies, healthcare professional and other providers of relevant health care services.

Discovery Health Rate for medicine

This is the rate we pay for medicine. It is the Single Exit Price of medicine plus the relevant dispensing fee.

Discovery HomeCare

Discovery HomeCare is an extra service that offers you quality care in the comfort of your home. You can use this for healthcare services like intravenous (IV) infusions (drips), wound care, postnatal care and advanced illness care.

E

Efficiency discount arrangement

An option where members on the KeyCare Start Regional Plan benefit from a lower contribution in exchange for limiting their access to a restricted network.

Emergency medical condition

An emergency medical condition may be referred to, simply, as an emergency. It is the sudden and, at the time, unexpected onset of a health condition that requires immediate medical and surgical treatment. Failure to give this medical or surgical treatment would result in serious impairment to bodily functions or serious dysfunction of a bodily organ or part, or it would place the person's life in serious jeopardy.

An emergency does not necessarily need you to be admitted to a hospital and you may be treated in casualty only. We may ask you for more information to confirm the emergency.

F

Find a healthcare provider

'Find a healthcare provider' is a medical provider search tool that is available on the Discovery Health app or website.

H

HealthID

Discovery HealthID is an online digital platform that gives your doctor fast, up-to-date access to your health information. Once you have given consent, your doctor can use HealthID to access your medical history, refer you to other healthcare professionals and check your relevant test results.

K

KeyCare Online Practice

M

Medicine List (formulary)

N

Networks

Depending on your chosen plan, you may need to use specific hospitals, doctors, specialists or allied healthcare professionals in a network. We have payment arrangements with these providers to make sure you can access quality care that is affordable. When you use a network provider, you avoid having to pay extra costs and co-payments.

Hospital networks

Make sure you use a hospital in the network, specific to your plan to get full cover.

Home-based hospital network

You have full cover for carefully selected low-acuity conditions if you use a designated service provider in the Home-based hospital network.

- An emergency medical condition
- A defined list of 271 diagnoses
- A defined list of 27 chronic conditions.

The Council for Medical Schemes has set the following rules for how to access Prescribed Minimum Benefits:

- Your medical condition must qualify for cover and be part of the defined list of Prescribed Minimum Benefit conditions.
- The treatment that you need must be provided for in the defined benefits.
- You must use designated service providers in our network. This does not apply in emergencies. Where appropriate, and in line with the rules of the Scheme, you may be transferred to a hospital or other service providers in our network, once your condition has stabilised. If you do not use a designated service provider, we will pay up to 80% of the Discovery Health Rate. You will be responsible for the difference between what we pay and the actual cost of your treatment.

If your treatment doesn't meet the above criteria, we will pay according to your plan benefits.

Primary Care doctor

A Primary Care doctor helps you take care of your general health. You are likely to have better health outcomes when you nominate one doctor to manage your health and coordinate your care. Your Primary Care doctor knows your complete medical history and takes the healthcare approach that is best for you.

Your access to Prescribed Minimum Benefits and cover in an emergency

What are Prescribed Minimum Benefits?

According to the Prescribed Minimum Benefits, the Medical Schemes Act 131 of 1998 and its Regulations indicate that all medical schemes must cover the costs for the diagnosis, treatment and care of:

- An emergency medical condition.
- A defined list of 271 diagnoses.
- A defined list of 27 chronic conditions.

The Council for Medical Schemes (CMS) provides the following rules for accessing Prescribed Minimum Benefits:

- Your medical condition must qualify for cover and be part of the defined list of Prescribed Minimum Benefit conditions.
- The treatment that you need must match the treatments in the defined benefits.
- You must use designated service providers in our network. This does not apply in emergencies. In an emergency, where appropriate and in line with the rules of the Scheme, you may be transferred to a hospital or other service providers in our network once your condition has stabilised. If you do not use a designated service provider, we will pay up to 80% of the Discovery Health Rate. You will be responsible for the difference between what we pay and the actual cost of your treatment.

If your treatment doesn't meet the above criteria, we will pay according to your plan benefits.

What is considered a medical emergency?

An emergency medical condition may be referred to, simply, as an emergency. It is the sudden and unexpected onset of a health condition that requires immediate medical or surgical treatment. Failure to provide this medical or surgical treatment would result in serious impairment to bodily functions or serious dysfunction of a bodily organ or part, or it would place the person's life in serious jeopardy. An emergency does not necessarily require you to be admitted to a hospital and may be treated in casualty. We may ask you or your treating provider for information to confirm the emergency.

Assistance during or after a traumatic event

You have access to dedicated assistance during or after a traumatic incident. By calling the Emergency Assist number or using the 'Emergency Assist' feature on the Discovery Health app, you and your family can access trauma support 24 hours a day. This service also includes counselling and extra benefits for trauma related to gender-based violence.

What we pay for

We pay for the following medical services, which you may receive in an emergency:

- The ambulance (or other medical transport).
- Your stay at the hospital.
- The services that you receive from the doctor who admitted you to the hospital.
- The anaesthetist's services.
- Services from any other healthcare professional or provider who/that we approve.

Delivering hospital-level care safely and effectively in your home for many medical conditions for which you would otherwise be admitted to hospital.

Hospital at Home

Discovery Hospital at Home provides qualifying members with the option to receive hospital-level home-based care instead of being admitted to a traditional hospital or after an early discharge from hospital for continuation of care in the home.

Members receiving treatment in the home have access to enhanced benefits and services, delivered through their personalised care team of participating providers in the Home-based hospital network.

You have access to the following Home-based hospital network providers giving you access to Discovery Hospital at Home services, for home-based treatment:

- Discovery Home Health
- Mediclinic at Home
- Quro Medical

Hospital at home is the designated service provider (DSP) for the Delta plans for home-based care for qualifying conditions such as chronic obstructive pulmonary disease, pneumonia, complicated urinary tract infection, heart failure, cellulitis, deep vein thrombosis, asthma, and diabetes.

You do not need to use this network in the event of an emergency, or if not deemed clinically appropriate for homebased care according to the treating provider. Should you choose to not make use of this network once your treating healthcare provider has recommended it as part of your care, an upfront payment of R5,250 will apply to the admission.

If you meet the Scheme's clinical and benefit entry criteria, this gives you access to:

- Physical and virtual 24-hour care, facilitated by a dedicated care team
- A remote monitoring device that automatically transmits information to a hospital-based care team, 24 hours a day, 7 days a week
- Access to an improved range of clinical diagnostic procedures and interventions to manage medical or postsurgical hospital-level care at home.

Home Monitoring Device Benefit for essential home monitoring

The Home Monitoring Device Benefit gives you access to a range of essential and registered home monitoring devices for certain chronic and acute conditions. Approved cover for these devices will not affect your day-to-day benefits.

Services include postnatal care, end-of-life care, IV infusions and wound care. We pay for these services from the Hospital Benefit. This payment is subject to approval.

This benefit covers the assessment of your child's growth and development. We pay for you to have your child's weight, height, body mass index and blood pressure measured at one of our wellness providers.

Screening for adults

This benefit covers a Health Check – a simple but helpful set of basic health screenings, which we pay for every year. A Health Check is performed at the point of care, with finger-prick tests where appropriate. Some of the screenings are for BMI, blood pressure, blood glucose, cholesterol and HIV.

We also cover a mammogram or ultrasound of the breast every two years. We pay for a Pap smear once every three years or an HPV test (including self-sampling kits) once every five years as well as a mental wellbeing assessment and a prostate-specific antigen (PSA) test annually. Every two years, for members between 45 and 75 years, we pay for a bowel cancer screening test (including self-sampling kits).

Screening for seniors

In addition to screening for adults, members who are 65 and older have cover for an age-appropriate falls-risk screening assessment. This assessment must be carried out at a pharmacy in our defined pharmacy network. We may cover you for an extra falls-risk assessment when you are referred to a Premier Plus GP. This depends on your screening test results and if you meet the Scheme's clinical entry criteria.

Visit www.discovery.co.za to view the detailed Screening and Prevention Benefit guide.

Additional tests

Clinical entry criteria apply to these tests:

- Defined diabetes and cholesterol screening tests.

What the benefit does

This benefit pays the costs when you are admitted into hospital.

What we cover

We give you unlimited cover for stays in any private hospitals that are approved by the Scheme, subject to the KeyCare network requirements. The network depends on the plan you choose. Your doctor may recommend home-based care as part of your treatment. You will need to make use of our Home-based Hospital Network which is the designated service provider for home-based care. How to access the benefit

Get your confirmation first

Contact us to confirm your hospital stay before you are admitted. (This is known as preauthorisation).

Where to go

What we pay

We pay for planned hospital stays from your Hospital Benefit. Specifically, we pay for your medicine in hospital, the hospital stay itself, and the services that you receive from all healthcare professionals who provide you with care and treatment. Payment is subject to the Scheme authorising your hospital stay. If you use doctors, specialists and other healthcare professionals who we have a payment arrangement with, we will pay for their services in full. We pay up to the Discovery Health Rate for other healthcare professionals.

You can avoid co-payments by:

- Going to a hospital in the network of hospitals for your plan.
- Using healthcare professionals who we have a payment arrangement with.

If you have to go to hospital, we will pay your hospital expenses. There is no overall hospital limit for the year on any of the plans. However, we limit how much you can claim for some treatments. Contact us well before you have to go to hospital. We will let you know what you are covered for. If you do not contact us before you go, we might not cover the costs.
